SKILLS

PROJECTS

• Winscart — Ecommerce Platform

Designed and developed a scalable and secure ecommerce platform independently, delivering seamless user experience, robust payment processing, responsive design, and automated CI/CD pipelines to ensure high performance and continuous uptime.

Packito — Package Generator

Developed a Laravel package generator that automates scaffolding of complete, production-ready packages with migrations, models, controllers, routes, and CI/CD configurations, significantly reducing setup time and ensuring code consistency.

9 SU

SUMMARY

Senior Full Stack Developer with over 5 years of experience delivering robust, scalable web applications across real estate, e-commerce, and automation domains. Specialized in building ERP-grade CRM platforms, multi-vendor systems, and CI/CD workflows that drive efficiency and digital transformation.

Highly skilled in Laravel, Vue.js, and RESTful APIs, with hands-on experience in cloud hosting, DevOps automation, and Al-assisted development using GitHub Copilot and ChatGPT. Passionate about performance optimization, clean architecture, and scalable system design.

EXPERIENCE

Senior Full Stack Developer — Prop CRM

📍 Dubai, UAE | 🗂 Mar 2023 – Present

- Architected and developed a comprehensive CRM-ERP platform used by top real estate companies in the UAE, covering leads, deals, marketing, and property management in one unified system.
- Created modular architecture for sales, marketing automation, and client relationship tracking, improving operational efficiency and reporting accuracy.
- Implemented CI/CD pipelines for automated testing, deployment, and environment synchronization — reducing release time and improving reliability
- Managed cloud infrastructure on DigitalOcean and AWS, ensuring performance, uptime, and data security.
- Mentored junior developers and led code reviews to maintain quality, scalability, and adherence to best practices.
- Collaborated with leadership teams in an Agile Scrum environment to align technical solutions with business strategies, participate in sprint activities, and deliver features on time to meet client goals.

Full Stack Developer — Hexnine Technologies

📍 Kerala, India | 🗂 Nov 2020 – Jan 2023

- Engineered and maintained web applications using Laravel and Codelgniter, applying modern design patterns for scalability.
- Built and integrated RESTful APIs for secure data exchange between client systems and external platforms.
- Delivered multi-vendor e-commerce and CRM solutions with optimized front-end and back-end performance.
- Implemented CI/CD pipelines using Docker and GitHub Actions, deploying applications efficiently while enhancing performance, maintainability, and team collaboration through Agile practices.

Bachelor of Technology (B.Tech) in Computer Science

MES College of Engineering, Kuttippuram | 2016 – 2020 Kerala, India
